

Key Features

The JBOX 5-3 allows to connect together all the Audio/Video devices used in normal domestic applications.

The JBOX 5-3 is able to connect up to three independent vision, transponder and recording devices, selecting the Audio/video signal, for each one of them, from a set of five possible independent sources. The choice of the available source is done using one selection push button and one colored lighting indicator on each output.

User's Note

The JBOX 5-3 is able to connect up to three TV screens to a set of independent devices such as home cinema, stereo, videogames, lap-top, DVD reader, UHF transponder, SAT/DBV-T decoder. It also allows to recorder two independent TV signals while there is a different third one under vision on the connected TV screen. Audio signals are in stereo mode on every selected connections.

Technical Characteristics

ELECTRICAL

Supply Voltage : 9 – 12 Vdc @ 100mA

Consumption : 1 Watt maximum

External AC/DC power supply

MECHANICAL

Dimension : 200 x 100 x 30 (h)

Weight : 300 grams

Material : ABS

Color : black

CONNECTIONS

Inputs : 4x Scart (RGB/S-VHS)
1x Cinch A/V

Outputs : 2x Scart (RGB/S-VHS)
1x Cinch A/V

CONTROL

Selection : 1 pushbutton on each output

Status : 3 LED on each input

Mechanical Layout (Unit: mm)
